The fourth keepsake created for the Hands Touching Hearts gift collection is a flag.

It measures 5 inches wide by 10 inches tall

and is made using canvas, felt and wood.

Like all program keepsakes, the flag is designed to be transformed by the work of the decorator's hands. For this gift, program participants decorate the flag post.

Upon completion of the gift, the decorator has two options:

1. Take the keepsake and give it to an active-duty service member, reservist or veteran that the decorator knows personally.

2. Give the keepsake to Ann M. Cosgrove, the originator of Hands Touching Hearts, and have her send it to a veteran in crisis that the decorator does not know.
